

SENIOR LEVEL MECHANICAL HVAC ENGINEER

Position Immediately Available in Harrison, ME

Turner Building Science & Design, LLC is offering a spectacular career opportunity for a very experienced HVAC Engineer to become part of a team committed to sustainability and healthy indoor air quality.

The primary responsibility of this position will be HVAC engineering, plumbing, and fire protection systems for industrial, commercial, institutional and cleanroom building projects throughout New England. Desirable additional technical skills include energy analysis, displacement ventilation, commissioning, building science, and low energy projects.

Required qualifications include:

- Bachelor's degree in mechanical engineering, architectural engineering, or equivalent required.
- LEED® accreditation or familiarity with sustainable design practices.
- A minimum of 10 years experience designing and trouble shooting HVAC systems and leading design projects.
- Professional Engineering (P.E.) registration.
- Exceptional proficiency with Excel, Word, and CAD or Revit.
- The ideal candidate must possess the ability to work well in a leadership role of a team-oriented, multi-disciplined, small office environment, while meeting tight schedule and budgetary constraints. Field experience a must.
- Ability to create proposals and complete construction document packages with design, drafting, and specifications.
- Needs to be a self-motivated, technical problem solver with very strong oral and written communication skills.
- An open mind and a willingness to teach and learn from others.
- Comfortable and effective with clients and contractors as direct interface.
- Reliability and integrity; interest in becoming an associate.

Turner Building Science & Design, LLC / The H.L. Turner Group Inc. offers competitive salaries along with a complete benefits package including: medical plans, 401k plans, educational reimbursement, professional registration reimbursement, and a variety of training and development programs to help develop the skills needed to succeed.
