

BAE SYSTEMS

Owner: BAE
Systems

Scope of Work:
HVAC Upgrades

Location: Various
Locations

Since 2006, Turner Building Science and Design has provided BAE Systems with a wide variety of mechanical services. Some of these professional design services include the replacement of an adsorption chiller with a new centrifugal chiller, the replacement of a NHQ cooling tower, and a dust collector replacement.

TBS has also been involved with aiding BAE Systems with Benchmark Verification for Energy Star Certification.
