

MAINE DEPARTMENT OF TRANSPORTATION

Owner: Department of Transportation

Scope of Work:
HVAC Renovations/
Commissioning

Location: Augusta,
Maine

The new building design incorporated upgrades to the window-wall and HVAC systems bringing the complex up to current code requirements and renovating all interior finishes. The new space plan fosters teaming between departments and provide for more efficient flow of personnel. The enhanced interior environment incorporates new lighting, carpeting, doors, ceilings, interior partitions, and office furniture that dramatically improve the appearance of the space.

Turner Building Science & Design also acted as commissioning agent for this project.
