

## WHITE MOUNTAIN COMMUNITY COLLEGE – ENERGY AUDIT

**Owner:** White Mountain  
Community College

**Scope of Work:** Energy  
Audit

**Location:** Berlin, New  
Hampshire

For this project, the H.L. Turner Group provided Energy Auditing and Retro-commissioning services for the White Mountain Community College which including one building of approximately 92,683 square feet. The work included the review of lighting, HVAC systems, controls, mechanical and building envelope to find savings and projects through energy conservation.

The commissioning effort provided by Turner Building Science & Design, investigated equipment operations, efficiencies, and provide recommendations to improvement overall building performance.

The study and analysis was based on an ASHRAE Level II audit and involved ARRA funding requirements. The final report indicated simple payback information and savings and identification of available financial sources and/ or rebates. Services included the evaluation of various alternative energy and energy conservation opportunities that could be employed.
