

TEMPEST RIDGE CONDOMINIUMS

Owner: NAI Hunneman Development

Scope of Work: New Construction - Condominiums

Location: Newry, Maine

The project included three buildings (nine planned) of four units each totaling about 10,000 square feet. The units include an open first floor plan, master bedroom, jr. master bedroom, and guest rooms. Each unit has a private deck and lower level walk out family room.

The exterior design evokes the ski lodges of New England with rustic siding, stone, shingles, and natural log detailing. The interiors are detailed with high-end cabinets, stone fireplaces, wood flooring, ski storage, and warm natural color schemes.

The second of three phases for this prestigious slope slide condominium project at a premier Maine ski resort is currently under construction.
